Design Architect

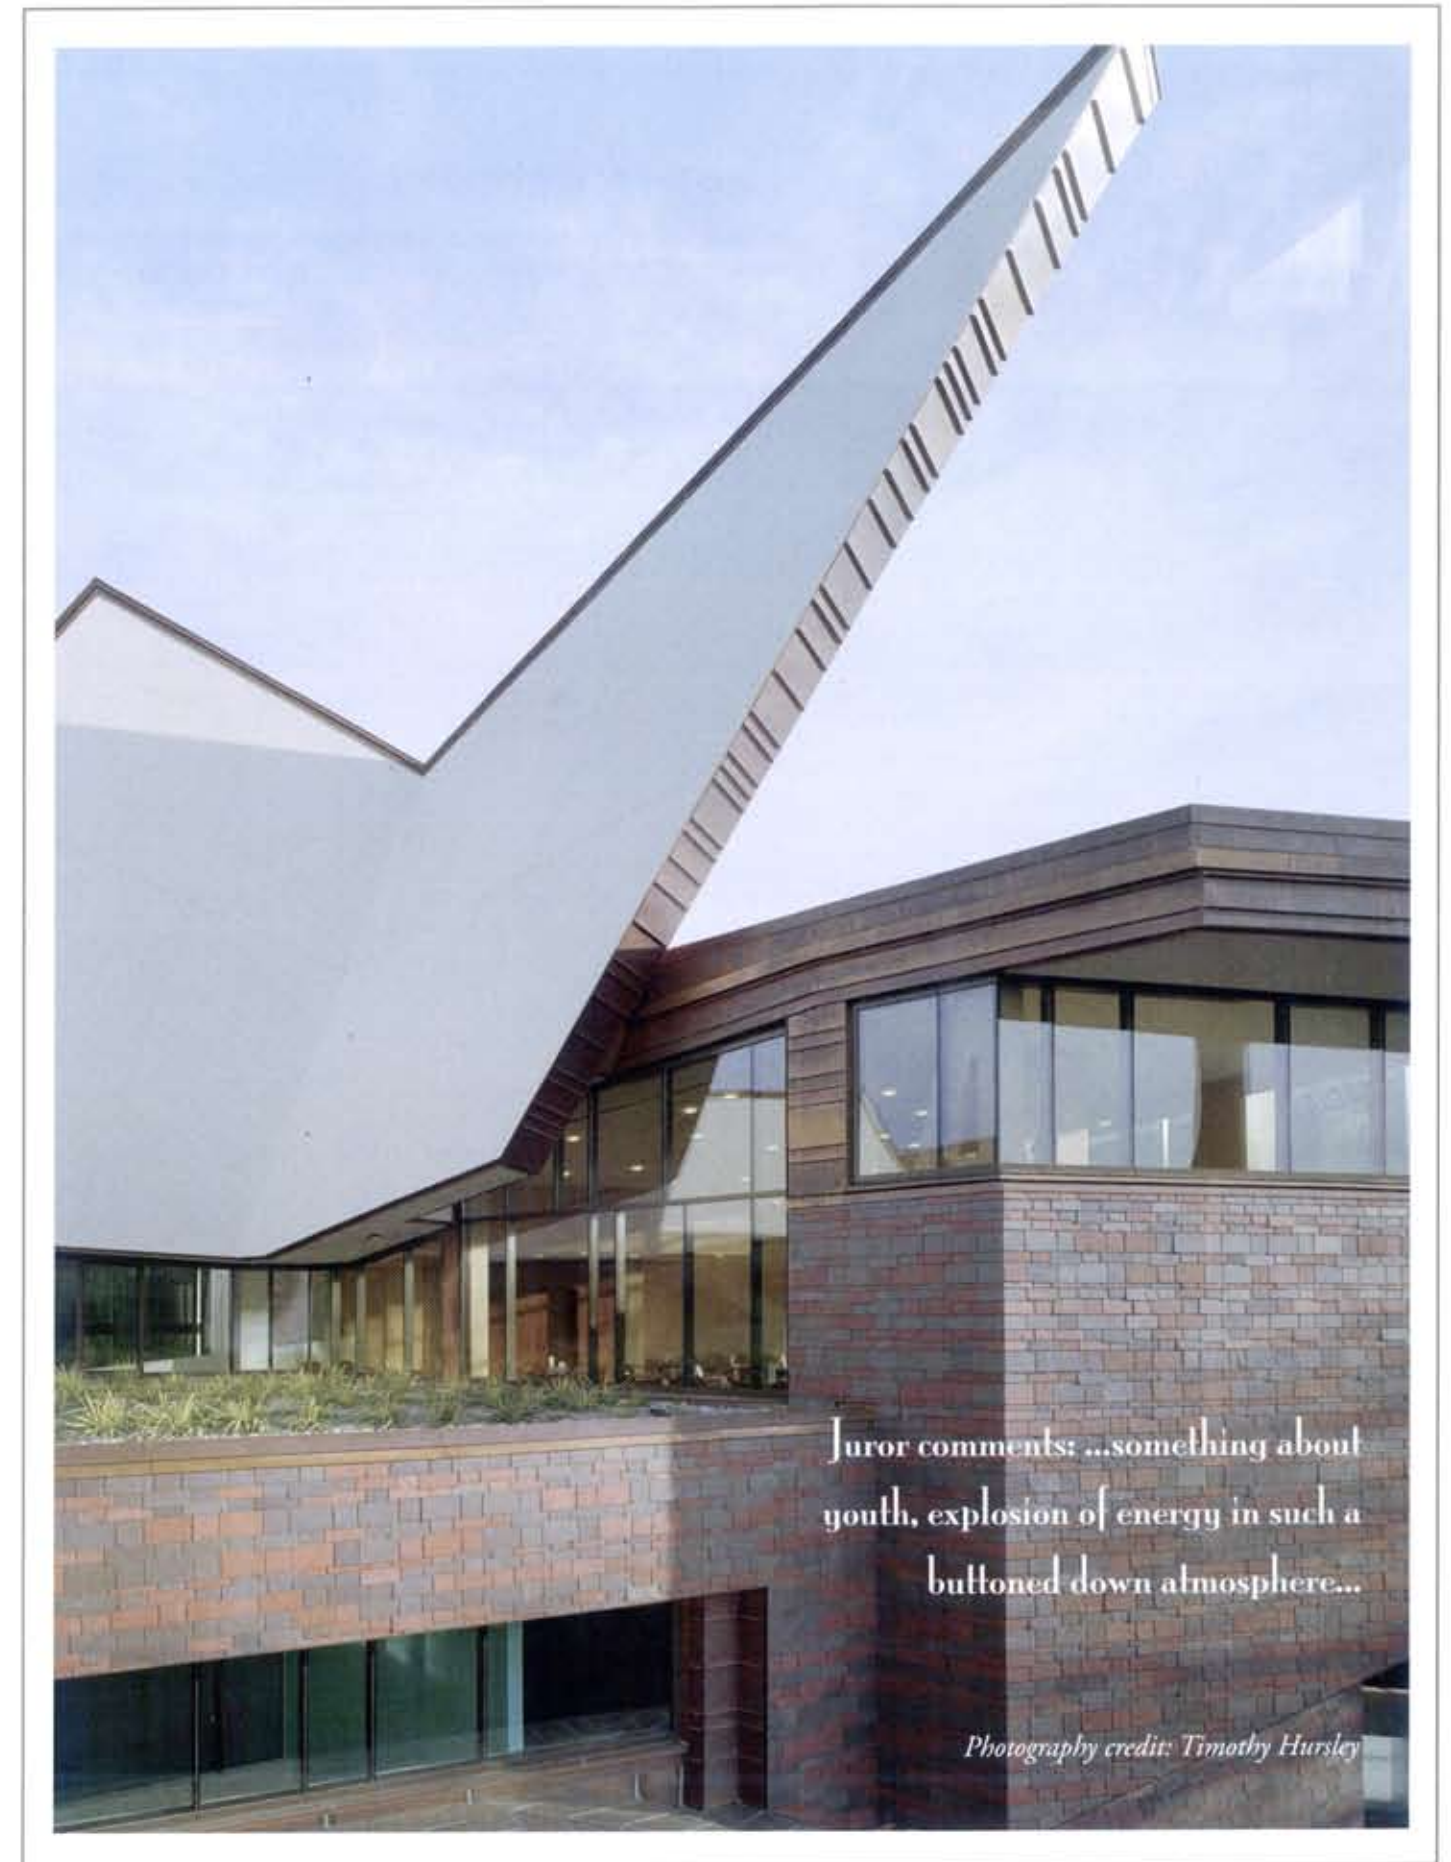

Mack Scogin Merrill Elam Architects, AIA

Design Team:

Michael Van Valkenburgh Associates, Landscape Architect, Arup,
Structural, Mechanical, Electrical and Plumbing Engineer

The campus center, parking facility and related valley landscape projects encompass a large portion of the western half of the campus. In addition to meeting rooms, administrative offices, a large multipurpose space and post office; program areas of the campus center include a pub and bistro, café, main dining facility, convenience store, bookstore, student retail space, student resource room, student organization storage, two student lounges and several outdoor terraces and outdoor gathering spaces.

Juror comments: ...something about youth, explosion of energy in such a buttoned down atmosphere...
